That this applause was as sincere as it was apparent'y hearty was not long a matter of doubt, for when he had occasion, a little later, to visit the New York delegation, the applause was taken up with great energy, and lasted as long surnals do not atways fall in pleasant places. as the face of the brave Carolinian was to be seen above the sea of applauding delegates. The name of Tilden was received with a storm of cheers by a hundred or more delegates in the center near the stage, and some capital has been made out of it by a few of the less intelligent of the Tilden leaders, who hope when, after a few ballots

CHILDREN.—Mental and physical weakness of youth has its origin, in the majority of cases, in defective nutrition. Food in sufficient quantities is taken, but it is not assimilated. The blood is pale, thin and weak. There is no life in the little one who pines in solitude, to the astonishment of friends and relatives. Now, what this young patient wants is something to nourish and strengthen the blood, increase the flesh, and build up the system. Nothing in medicine or detectics can possibly equal. MALT BITTERS. This thocomparable nutrient is rich in bone and fat producing materials. It assists digestion, elecases and enriches the blood, and prepares the system to resist disease and debility. MALT BITTERS are prepared without fermentation from Canadian BARLEY MALT and HoPs, and warranted superior to all other forms of mait or medicine, while free from the objections urged against malt liquors.
